

Advanced Antioxidant Formula

Product Reference Sheet

The Benefits of 10 Servings of Fruits and Vegetables in One Capsule.

Waiora's **Advanced Antioxidant Formula** is a proprietary, whole-foods blend of freeze-dried fruits and botanical extracts that help supplement the gap in our diets by providing the antioxidant equivalent of 10 servings of fruits and vegetables; including phytonutrients, anthocyanins, naturally occurring polyphenols and containing grapeseed extract, green tea, resveratrol (found in the skins of red wine grapes) and quercetin. This dietary supplement may boost your immune health and cognitive function by neutralizing free radicals and reducing oxidative stress on your body.*

• An Advanced Antioxidant

According to the U.S. National Cancer Institute (NCI) and National Research Council (NRC), less than one in every 10 adults consumes the five-serving minimum of fruits and vegetables each day. Key nutrients found in high quality antioxidants and vitamins from fresh, whole food fruit and vegetables not only bolster your immune health, they fight oxidative stress and cellular damage caused by scavenging free radicals. Long-term free radical damage can compromise your systems internally as well as contribute to wrinkles, fine lines, age-spots and wrinkles.

• An Expert's Advice

"We eat fruits and vegetables that are high in antioxidants to mitigate the effect of free radical damage and slow the aging process. The problem is that we don't eat enough. The average American eats less than one serving of fruits and vegetables each day! However, we can supplement our diets with Advanced Antioxidant Formula to receive the antioxidants necessary to fight oxidation stress. Just one capsule, is the equivalent of at least 10 servings of fruits and vegetables!"
