

Natural Cellular Defense

Product Reference Sheet

The Most Important Supplement You'll Ever Take!

Waiora's **Natural Cellular Defense** has been clinically formulated to help support a healthy immune system, remove heavy metals, toxins and other substances, and balance your body's pH levels.*

Cellular Defense and More.

Many years ago, volcanoes erupted and poured lava into the sea. The combination of lava, ash and salt from the sea caused a chemical reaction, and over thousands of years zeolites began to form in the hardened lava. Throughout Asia, powdered forms of specific zeolites have been used for centuries as traditional remedies to promote overall health and well being.

The zeolite's honeycomb-like framework of cavities and channels (like cages) works at the cellular level attracting heavy metals and toxins. In fact, because it is one of the few negatively charged minerals in nature, zeolites act as magnets drawing toxins to it, capturing them in its cage, removing them safely and naturally from the body.*

• Key Benefits

- Helps remove heavy metals, toxins and other substances from the body.*
- Supports a healthy immune system.*
- Helps balance pH levels in the body.*
- 100 percent natural and non-toxic.*

• An Expert's Advice

"One of the greatest benefits of Natural Cellular Defense is its ability to rid your body of heavy metals, pollutants and chemicals. Eliminating these toxins not only helps strengthen your systems and protect your cells, it can also preserve your health." —*Rik Dietsch, Biochemist, Fla.*

• Testimonial

"I suffer from esophageal reflux. Since taking Waiora's Natural Cellular Defense, I've noticed that I have not been having the frequency of reflux issues! I am convinced it will virtually eliminate my reflux issues. Thanks for bringing such an amazing product to market."
—*Bob H., Texas* †
